

As a Biocom customer of Fisher Scientific you qualify for savings on some of our most popular vacuum pumps.

Buy products through Fisher Scientific between 5/1/20 and 12/31/20 and receive exclusive Biocom pricing. For product information, visit www.brandtech.com, or call Customer Service at 888-522-2726.

PC 3001 VARIO® select is the best choice vacuum system for bench-top sized rotary evaporators and other evaporative applications. The PC 3001 VARIO® select controls the vacuum in your rotary evaporator with minimal supervision, continuously optimizing to changing vapor conditions without programming.

The BVC professional is a self contained fluid aspiration system for the modern cell culture laboratory. Powered by a whisper-quiet VACUUBRAND® chemistry-design vacuum pump with a integrated 4 liter polypropylene bottle, the BVC will easily handle all your culture media aspiration tasks. It includes an external liquid level sensor, which operates without contacting bottle contents. A special disinfection program allows disinfection of the VHC^{PRO}.

The MD 1C is a whisper quiet, low maintenance vacuum pump, made with chemically resistant fluoropolymer heads, diaphragms, and valves. It's a compact workhorse of a pump that can support many applications including rotary evaporation, vacuum ovens, gel drying, and centrifugal concentration. Ideal for convenience and economy.

The ME1 is an excellent choice for filtration and solid phase extraction. It features PTFE diaphragm and valves for enhanced corrosion resistance. Plus a compact design and whisper quiet operation.
